

THE DEMA REPORTER

Monthly Happenings about WMD Training

December 2004

Hello everyone, welcome to this months edition of the Delaware Emergency Management Agency (DEMA) Office of Domestic Preparedness (ODP) training news flyer. Alot has happened in the last couple of months so let's get to it.

NEW STUFF ➤

The new ODP Training catalog is finally out on the street. The new catalog consists of 15 Awareness courses, 23 Performance level courses and 13 Management level courses. In addition, ODP has added a Specialized Training course. I am in the process of making paper and DVD copies for anyone that would like one. Please don't flood me with requests just yet, when they are ready for distribution I will let everyone know. The catalog can be downloaded in PDF format from the ODP website at www.ojp.usdoj.gov/odp

The Training & Exercise Sub-Committee will look at the catalog at their next meeting on December 15th and will incorporate certain courses into the state's WMD training plan.

WHAT'S HOT ➤

ODP has requested that each state begin to identify at least 3 trainers from each of the 10 disciplines (30 trainers total). These trainers will attend a 12 hour National WMD Standardized Awareness Authorized Trainer (SAAT) Train-the-Trainer course. Graduates of this course will then be certified to deliver the 6 hour National WMD Standardized Awareness course to their disciplines. If you are interested in becoming a trainer for this program please contact your discipline lead.

I have put together a list of courses that are available from the Emergency Management Institute (FEMA) concerning Incident Command System (ICS) and National Incident Management System (NIMS). These two systems are a hot topic and everyone should be familiar with them.

<http://training.fema.gov/emiweb/IS/crslist.asp>

IS-100 Introduction to the ICS
IS-195 Basic ICS
IS-200, Basic ICS
IS-700 National Incident Management System (NIMS), An Introduction
